## Seamless General Ledger Integration

Best Software's General Ledger Links provide an easy, accurate, and dependable way to post summary depreciation expenses from FAS to your general ledger.

GL Links are easy to use by simply selecting the link from your FAS menu. GL Links provide accurate depreciation expense journal entries by automating the posting process between FAS and your general ledger. In addition, the accuracy between FAS and your general ledger can be verified by a dependable posting report that is generated every time you send your FAS depreciation data to your GL.

## Universal and Supported GL Links

Our Universal General Ledger Links integrate with your GL package, and are available for FAS FirstStep™, FAS Asset Accounting™, and FAS Asset Accounting *for SQL Server*.
