insights for the life of your business™

## WHAT'S NEW IN SALESLOGIX v6.2

*SalesLogix Customer Service enables you to quickly resolve customer questions, issues and requests for a high quality customer experience. Key features include Ticket Management, Advanced SpeedSearch, Service Contract Management, and a Customer Self-Service Web Portal.*

## Features

### EASIER IMPLEMENTATION

- Benefit from express installation for faster “one server” implementations
- Setup Assistant appears after installation within the Administrator
- Import and configure licenses, offices and new users quickly and easily
- Copy and paste licenses as a group from an e-mail or text file
- Import new users directly from Windows (Active Directory not required)

### SALESLOGIX CUSTOMER SERVICE (Windows & Web)

#### Ticket Management

- Resolve customer questions, issues and requests quickly for a high quality customer experience
- Automatically assign tickets to the appropriate resource
- Track ticket ID, contact info, type, status, urgency, assignment and date needed
- Create new service tickets from Account, Contact and other locations
- Schedule phone calls, meetings or to-dos to follow up on open issues
- Send e-mail with attachments and record correspondences and activity history
- Submit issue descriptions and resolutions for archival in the knowledge base
- Create ticket groups, lookups and reports
- Track ownership and individual time spent on customer issues
- Receive automatic notifications when service conditions or deadlines are triggered
- Configure user workflow options, or grant ability to modify at user level

## Enhanced Opportunity Entry

- Add all new opportunity data in a single view with configurable default values
- Input description, estimated close, status, source, close probability and products
- Associate multiple contacts and competitors and select sales process
- Add multiple products or product packages quickly and input discount and quantity
- Set opportunity defaults at Admin or user level for efficiency and accuracy

## Opportunity Statistics

- View opportunity totals and key metrics for quick analysis of sales pipeline
- See number of opportunities, total and weighted sales potential
- Review average close probability and average number of days open
- Export information to Excel or launch new opportunity reports instantly

## Sales Process Engine

- Utilize a new, flexible sales process engine to drive opportunities to close
- Define stages and steps and associate corresponding close percentages
- Launch activities such as literature requests, e-mails, proposals or custom forms with one click
- Click checkboxes to register completion of the activity and advance the sale

## Multi-currency Support

- Designate a system-wide base currency and manage multiple alternate currencies
- Lock currency rates if opportunities require
- Generate proposals reflecting native customer currency

## INCREASED EASE OF USE

- Benefit from enhanced workflow, usability and access to information
- Launch a “split view” for visibility of group lists and individual records concurrently
- Insert new Accounts with multiple Contacts from a single view and perform check for duplicate records
- Perform “1-to-many” mail merges for inclusion of tables or lists in documents
- Share access to groups between users simply and release changes
- Copy key contact info to notepad automatically for use in an e-mail or document

## Global date/time support for Activities & Calendaring

- Automatically convert all dates and times to users’ local times
- Access a time-zone calculator when scheduling meetings with other regions

## Windows Authentication – Single Sign-on

- Log-in to SalesLogix automatically using Windows ID and password (optional)
- Retain user administration in the SalesLogix Administrator

## CUSTOMIZATION OPTIONS

- Extend SalesLogix functionality beyond Accounts/Contacts/Opportunities/Tickets
- Create MainViews with the features of standard views including tabs and groups
- Display non-modal forms or dialog boxes in a main view “container”
- Configure sales process stages, steps and actions and bundle for release
- Utilize simplified set-up and maintenance of Area/Category/Issue picklists
- Global scripts are loaded in memory and do not terminate until the application is closed
- Customize all new functionality in Architect (excluding SpeedSearch)

*“The new SalesLogix Customer Service functionality in version 6.2 enables our employees to quickly resolve customer issues and requests, resulting in increased productivity and a high level of customer satisfaction.”*

*Ben Holcombe  
Concurrent Computer Corporation*
